

Questions:

- 1) Identify all entities in the system. (1 point)
 - a) The entities in the system are Patient, Admission, Hospital Room, Doctor, Department, and Insurance Policy.
- 2) Draw a complete ER diagram with correct relationship names and min-max notation. (2 points)

- 3) Clearly indicate participation (optional or total) where applicable. (1 point)
 - a) Participation is total where there are double lines, and optional where there is a singular line.
- 4) Where should AdmissionDate and DischargeDate be placed in the ER diagram? Explain why. (1 point)
 - a) AdmissionDate and DischargeDate should be placed by the admission entity, since the date information is used by the patient and the hospital room and is part of the admission.
